

Principal Indexed Universal Life Flex IISM

Get today's indexed UL built for tomorrow.

Some indexed universal life policies are built with an eye toward winning the illustration battle. But how a policy performs after the sale may be its true measure of value.

With Principal Indexed Universal Life Flex II (IUL Flex II), clients get a simple design with lower policy charges that doesn't rely on a persistency bonus, index multiplier, or other form of performance booster. In other words, it's built with stability in mind to help clients feel confident about achieving their long-term goals.

The power behind IUL Flex

Lower policy charges enable IUL Flex II to do more with less. It doesn't need a high cap rate or heavy premium funding to perform well. Clients get a policy built to be:

Dependable

- Its design is transparent with no hidden drawbacks in the future.
- Lower charges drive efficient growth. And in years when the index-linked return earns the floor rate, values are impacted less.

Flexible

- Attractive cash value accumulation, especially during the first 30 years, provides a cash savings reserve and an exit strategy.
- Access to cash for a chronic illness is available via an accelerated benefit rider¹—automatically added to qualifying policies at no additional cost.

Economical

- Long-term coverage doesn't cost a lot of money, with the most competitive rates up to age 100.
- An optional Extended No-Lapse Guarantee (ENLG) Rider¹ offers greater than life expectancy guarantees for ages 50+ at a slightly higher charge.

Who can benefit?

Individuals who:

- Believe in the long-term potential of the market but want protection against market declines
- Like the value of cost-effective coverage and attractive cash value growth
- Prefer flexibility over guaranteed UL products

Business owners that need:

- Executive benefits for key employees
- Key person protection
- Buy-sell strategies
