1. 2017 Trends in Nonqualified Deferred Compensation, conducted by Principal

---
Here’s how we’ll make a difference for you

It’s critical that you and your financial professionals find the right plan provider. With Principal, you won’t have to look any further. We specialize in deferred comp, with a platform and service model tailored for your top employees. Whether setting up a new plan or getting the most from an existing one, we’ll help you get started. Everything you need is right here — conveniently in one place.

- Innovative plan design and consulting
- Multiple financing options
- Efficient plan implementation
- Dedicated plan administrative services

How does an organization ultimately benefit from a deferred comp plan? By designing one specific to its goals while being understood and valued by its top talent. Working with you and your financial professionals, we guide you through a process that considers the right deferred comp benefit plan options.

First, we’ll work hard to understand your organization and design a plan that makes sense with your short- and long-term goals. We want to identify those aspects that give you the most flexibility and versatility, from things like:

- Participant eligibility
- Employee deferrals
- Employer contributions
- Earnings crediting
- Distribution options
- Vesting options
- Investment choices
- Security mechanisms

Plan design flexibility makes us a top provider for organizations of all types — for profit, not-for-profit, small-to medium-sized businesses and large corporations. And we can tailor plan details — such as employer contributions, participant contributions, defined benefit or a unique combination — to meet your objectives.
How will you pay for your key employees’ benefits in the future? You can finance your plan however it works best for you and your organization’s bottom-line goals. We offer all the common financing techniques and create detailed models to help you make an informed decision.

- Company cash, using company cash-flow
- Taxable investments, such as mutual funds
- Corporate-owned life insurance (COLI)
- Dual-financing, with a combination of taxable investments and COLI

Retirement is the heart of our business. We give you access to well-known internal and external investment managers and sub-advisors with respected reputations.

Tax, actuarial and legislative experts, at your service

To help you manage your assets and tax liability, our team of consultants will work alongside your advisor to help tailor your plan to match your asset and tax strategy. Together, we’ll find an effective financing approach based on detailed financial models.

We’re speaking on behalf of employers like you on Capitol Hill, too. We’re active lobbyists at both federal and state levels to shape legislation and how it impacts your organization’s goals and your employees’ ability to save for retirement.

Efficient plan implementation

Our priority is to work with you and your financial professional to complete plan implementation as easily as possible without compromising accuracy.

Your dedicated client transition manager will talk with you about your unique goals, situation and needs, and then create a tailored action plan. It’ll include a timeline, plan design analysis and investment mapping. We make document signing easy through electronic signature technology. Plus, we’ll partner with you to create a strategy for educating your plan participants to ensure the enrollment process and introduction to the plan starts off on the right foot. Throughout every step, we’re there — keeping you informed and leading you through a smooth process.

1. **Strategy development**

2. **Finalize plan design and documents**

3. **Rollout to participants**

4. **Ongoing administrative services**
Dedicated plan administrative services

Once your plan is in place, you can expect the expertise, consultation and responsiveness to continue. We'll partner with you to take the complexities out of plan administration and decision-making. Along the way, you can trust our commitment to high-quality operations, reviewed by outside auditors annually.

Our approach to plan administrative services is designed to make your organization better and help your employees create a better financial future. And it starts with proactive education for you and your employees.

Focus on you, and your goals

You can expect tools and resources that give you convenient control and the information you need to drive positive organizational outcomes. Everything from enrollment to benefit payments will be easy and effective.

- On-demand reports
- Online plan management actions
- Education and communication resources
- Asset management
- Best practice guides

Focus on your employees

Each of your employees learn differently and understanding the plan’s value is critical, so we keep them in-the-know and provide the tools they need to optimize their savings strategy.

- Interactive digital education
- Videos that break down complex topics
- Detailed print resources
- Decision-making tools
- Online enrollment, data and account management actions

Our dedication to plan sponsors and participants shows

95% annual plan sponsor retention rate²
