

Business succession planning

## Smooth ownership transitions, even when you least expect it

It can be easy to think you'll have plenty of time to prepare for a transition in business ownership, but time can go by faster than you think. And there are many events—both planned and unplanned—that could impact your business, like retirement, dissolution, death, disability, divorce, or termination of you, another owner, or a key employee.

You've worked hard to build your business. Now take the time to protect its future and those who depend on it.

There are many succession strategies to consider, and we can help. Start with a simple question to narrow down your options.

..... To whom will you transfer ..... or sell your business?
