- Gender-distinct and unisex rates are available.
- Term conversions: minimum face of \$100,000 (conversions from Principal Life Term)

**Minimum business underwritten issue amount: \$100,000 for all programs\***

| Issue age | Business underwriting program | Minimum # of lives |
|-----------|-------------------------------|--------------------|
| 20-70     | Simplified Issue              | 5                  |
| 20-70     | Guaranteed Issue              | 10                 |

\* Business underwriting programs do not have surcharges. Cost of Insurance rates will reflect the full mortality for a case. There will not be any compensation reductions associated with business underwriting programs. All business underwriting programs require preapproval.

**Substandard ratings from Tables 2-16**

Table 2 through Table 16 percentage ratings apply only to Standard class, not Super Preferred or Preferred

| Issue age | Substandard rating available |
|-----------|------------------------------|
| 20-75     | Table 2-16, plus flat extras |
| 76-80     | Table 2-6, plus flat extras  |
| 81-85     | Table 2-3, plus flat extras  |

**Policy dating**

- Follows underwriting approval in the home office.
- Issue date range: 1st -28th; if received on the 29th, 30th or 31st, then date on the first of the following month.
- Backdating is allowed for up to six months before the application date or the exam date, whichever is later. Fixed interest will be applied to backdated premium. Policies may not be backdated beyond the state approval date. State variations apply.
- Cash upon delivery allowed.

**Planned premium frequency options**

- Annual
- Semi-annual
- Quarterly
- Monthly pre-authorized withdrawal. The draw date is the same as the policy date. Flex draws are not available.

# Accessing account values

**Do your clients have a one-time cash need? Or maybe they want to receive income on a more regular basis. Their insurance policy can help.**

This policy is designed more for affordable long-term protection than cash value growth and income. However, partial surrenders and/or policy loans can be used to withdraw values from the policy. Withdrawals are generally received free of income tax, so policy owners keep more of what they've earned.<sup>[1]</sup> Plus, unlike other types of tax-deferred assets, there's no penalty for withdrawals prior to age 59½.<sup>[2]</sup>

## Taking a policy loan

This policy offers a fixed policy loan option. When a loan is taken, an account in the amount of the loan is established as collateral. Values are moved from the accumulated value to the loan account, where it is credited with a declared rate of interest.

**Note:** Taking loans from the policy and not repaying them may result in the policy terminating by lapse. This would end coverage and could result in a tax liability. Clients should consult their personal tax advisor prior to requesting a loan.

## Scheduled surrenders and loans

- Need to only be requested once.
- Not available in the first policy year.
- Available payout frequencies of monthly, quarterly, semi-annually, and annually.
- Partial surrenders taken first until the cost basis of the policy has reached zero, at which time scheduled loans will begin.

<sup>1</sup> Distributions are generally tax-free as long as cost basis is withdrawn first, and then loans are taken and the policy is in force at death.

<sup>2</sup> As long as the policy is not a modified endowment contract (MEC).

# Principal UnderRight<sup>SM</sup>

## Our underwriters live by a simple philosophy—underwrite and over-perform.

We combine experience, service, and accessibility to help you deliver results that make a difference in your clients' lives every day.

- Competitive turnaround times and top-tier service
- Better insurance solutions for key employees with the Multi-Life Business Underwriting Program
- Faster and easier policy issue through Principal Accelerated Underwriting, with no lab testing or exams for the 45-55% of applicants who qualify<sup>[1]</sup>
- Ready access to your underwriter, plus dedicated case managers
- Reduction or elimination of ratings for healthy applicants through Healthy Lifestyle Credits<sup>[2]</sup>
- More underwriting convenience for higher face amounts with Principal Business Solutions Enhanced Underwriting
- Elimination of low substandard ratings through the Risk Upgrade Program

## Death benefit options (DBO)

|                           | DBO 1  | DBO 2  |
|---------------------------|--|--|
| <b>Death benefit paid</b> | Face amount  | Face amount + accumulated value  |
| <b>Description</b>        | <ul style="list-style-type: none"> <li>• The accumulated value increases while the amount of pure insurance decreases, keeping the death benefit level.</li> <li>• The death benefit will never be less than the accumulated value multiplied by the percentage the Internal Revenue Code (IRC) specifies as necessary to qualify the policy as life insurance.</li> </ul> | <ul style="list-style-type: none"> <li>• A variable death benefit, which will increase or decrease as accumulated value changes.</li> <li>• The death benefit will never be less than the face amount.</li> <li>• The death benefit will be adjusted upward as necessary to comply with IRC requirements to qualify the policy as life insurance.</li> </ul> |

**Note:** Partial surrenders and policy loans decrease the accumulated value and death benefit.

<sup>1</sup> Applicants may qualify based on age, product, face amount, and personal history.

<sup>2</sup> Earn up to two tables of credit that offset table ratings that have been assessed. To improve cases that are Standard risk or better, they must have only one knockout for build, blood pressure or cholesterol and have enough favorable factors for improvement. Ratings for cardiovascular disease, diabetes, and flat extras are excluded from the HLC. There are no limitations due to age, plan, or face amount.

# Face amount adjustments

## Face amount increases are approved at a risk class we determine and are allowed if:

- Insured's age is 85 or less (age 80 with ENLG and for Super Preferred risk class, and age 70 for business underwriting programs and DBO changes that result in a face increase).
  - › The increase meets minimum face amount increase requirements shown on current data pages.
  - › Non-Guaranteed Issue minimum face amount increase = \$50,000.
  - › Guaranteed Issue, Batch, and Simplified Issue minimum face amount increase = \$10,000.
- Evidence of insurability is approved by our underwriting team, subject to guidelines then in effect.

## Face amount decreases:

- Allowed on or after the first policy anniversary.
- Limited in years 2-5 to a cumulative 35 percent of original face amount at issue.
  - › The 35 percent limitation does not apply to DBO changes that reduce the face amount, or face amount increases resulting from partial surrenders.
- May not cause the face amount to fall below the required minimum face amount at issue.

# Grace period

**Without Extended No-Lapse Guarantee (ENLG).** If the net surrender value is insufficient to cover the monthly policy charge, and the No-Lapse Guarantee Test is not met, the policy will enter the grace period. The grace period is 61 days and begins when a notice of impending policy termination is mailed to the policy owner. If sufficient payment is not received by the end of the grace period, the policy terminates.

**With ENLG.** When the net surrender value is insufficient to cover the monthly policy charge and the ENLG is not in effect, the policy will enter a 61-day grace period. If by the end of the grace period the minimum payment has not been received, the policy terminates. During the first policy year, the minimum payment is equal to three ENLG monthly premiums. After the first policy year, the minimum payment is equal to the lesser of the shortfall for the monthly policy charge test or the shortfall for the ENLG test.

If the insured dies during a grace period, we'll pay the death proceeds to the beneficiary(ies) subject to the death benefit of the policy.

# Reinstatement

See the policy for reinstatement requirements.
