

Principal Universal Life Provider Edge IISM

A solution
that helps
protect your
family—and
your budget.

A photograph of two women walking outdoors, smiling. The woman on the left has long dark hair and is wearing a dark jacket over a dark top with a long necklace. The woman on the right has short blonde hair and is wearing a dark blazer over a white top. They are both looking towards the right. A dark blue semi-transparent box is overlaid on the left side of the image, containing the text 'Help protect your family or business.'

Help protect your family or business.

You have many people in your life who depend on you. Are you confident they'll be taken care of financially when you pass away? Don't worry—help is available.

The death benefit^[1] provided through permanent life insurance offers protection for your lifetime, as long as you make sufficient payments to keep the policy active. Plus, the benefit paid to beneficiaries is generally free of income tax and potentially estate tax, as well.

This tax-advantaged financial support can help your loved ones:

Remain in their current home where they're most comfortable.

Pay off debts that could create a financial burden.

Maintain their day-to-day lifestyle.

Get the care they deserve if they're unable to care for themselves.

Get more coverage for less.

You may know you need life insurance, but you don't want to break the bank to get it. After all—protecting your family's future is important, but you also have to meet your current needs.

Principal Universal Life Provider Edge II (UL Provider Edge II) could be the right solution for you. It offers valuable protection at a cost that can fit within most budgets.

Enjoy more flexibility

Your UL Provider Edge II policy earns cash value that can be used for unplanned expenses or to reduce the amount of future premium payments.^[2]

Plus, you can choose the amount of coverage you want, the length of time you wish the coverage to be guaranteed for, and the frequency of your payments when you purchase your policy.

Customize your policy.

A package of base riders is automatically included on the policy, as well as some optional ones.^[3] A rider is an additional benefit added to the policy to expand or enhance your coverage. Your financial professional can help you identify the right ones for your unique needs.

BASE RIDERS: Automatically included on the policy, subject to state availability and qualification requirements, at no additional charge unless used.

Chronic Illness Death Benefit Advance Rider^[4]. For details about this rider, see the Chronic Illness Death Benefit Advance Rider brochure (BB10935; BB10935CA in California).

Cost of Living Increase Rider. Helps you keep pace with inflation by allowing you to increase your insurance coverage with no additional underwriting.

Life Paid-Up Rider. Helps protect your policy from lapsing if you have a large policy loan, subject to the conditions of the policy.

Terminal Illness Death Benefit Advance Rider. Allows you to receive some of the death benefit early in the event of a terminal illness.^[5]

OPTIONAL RIDERS: May be added to your policy, subject to state availability, at a cost.

Business Value Increase Rider. Offers business owners more coverage as the value of their business increases.

Extended No-Lapse Guarantee Rider. Ensures your policy will stay in effect for a specified period up to age 100, as long as sufficient premiums are paid. There's no explicit charge for this rider, but electing it results in increased policy charges to compensate for a longer guaranteed coverage period.^[6]

Salary Increase Rider. Provides the business client the option to increase your insurance coverage to keep up with your rising salary.

Waiver of Monthly Policy Charge Rider. Waives the monthly charges for your policy (not the full premium amount) if you become disabled.

How the Business Value Increase Rider works.

This rider could be a beneficial option for business owners who want coverage that increases as their business grows in value. It works in three-year cycles:

- Your business is valued before your policy is issued.
- After years one and two, your coverage will increase by 5%, for a total face amount increase of 10% over two years.
- After the third year, your business is valued again. Any increase in value above 10% results in a matching increase in face amount value.

Example: If your business value increased 22% over the three-year period since your policy was issued, you'd receive an additional 12% face amount increase at the end of the third year, without any additional underwriting requirements.

- This process repeats for each three-year cycle over the life of your policy.

A quick review

This type of policy may be a good fit if you:

- Need life insurance coverage to help protect your loved ones.
- Want flexible payment levels that can fit within your budget.
- Value having access to cash value to help meet potential financial needs.
- Desire a back-up plan to help with additional expenses in the event of a permanent medical condition.

What happens next if I decide to purchase this product?

If this policy is the right choice for you, your financial professional will work with you to get started. Here's what you can expect next:

- You'll review an illustration to see how your policy might perform in different hypothetical scenarios based on the level of premium payment you're comfortable with.
- You'll complete an application. In some cases, you may be able to do this online.
- You'll begin the underwriting process. It may sound intimidating, but it's really not.
 - It's simply a way to determine an appropriate risk class for you based on factors, such as your age, sex, current physical condition and medical history, financial background, personal habits, occupation, and relevant hobbies (such as aviation or scuba diving). Your risk class helps determine the cost of your insurance.
 - Depending on your personal situation, you may qualify for a faster underwriting process known as Principal Accelerated UnderwritingSM, which means we gather less information from you and the process is usually quicker.
- After you've been approved and we receive your initial payment, you'll receive your policy. It contains all the detailed information—kind of like the owner's manual for your car.
- As a courtesy at the end of each policy year, you'll receive an annual statement.

All guarantees and benefits of the insurance policy are subject to the claims-paying ability of the issuing insurance company.

- ¹ In exchange for the death benefit, life insurance products charge fees such as mortality and expense risk charges and surrender fees.
- ² Premiums are flexible with regard to frequency and amount. However, paying a lesser amount or on a different payment schedule than planned will negatively impact the policy’s performance and duration of policy guarantees.
- ³ Riders are subject to state variations. Some riders may not be available in all states. Some riders may require additional premium. Riders issued by Principal Life Insurance Company are available in New York only.
- ⁴ Availability varies by state.
- ⁵ There is no charge to have the rider. However, the benefit is considered a lien against the policy and accrues interest, which will reduce the amount of death benefit paid to your beneficiary.
- ⁶ Policy changes can affect the length or existence of the extended no-lapse protection period, including changing the frequency, duration, and/or timing of payment; any planned unscheduled payment (known as Planned Additional Premium in Massachusetts) within the first policy year; receiving a loan or taking a partial surrender; an outstanding loan exceeding accumulated value on any monthly date; making changes in face amount, death benefit option, or risk class; adding, deleting, or modifying a rider with a cost; exercising the right(s) under any rider; or termination and/or reinstatement of the policy. Prior to making a payment or policy change, contact your financial professional.
