

Group dental insurance

# Extra dental benefits when they're needed the most

Did you know that good oral health helps improve overall health? That's why the dental insurance you offer employees is so important—especially for those with certain conditions that put them at risk for dental problems.

The group dental insurance you have from Principal® offers those employees additional benefits so they can get the extra care and advice they need. Here's how...

**Periodontal (gum-related) care.** Employees who are pregnant or have diabetes or heart disease face unique dental health challenges. Principal recognizes that and offers them:\*

- 100% coverage for scaling and root planing, or
- Coverage for one additional cleaning (routine or periodontal), subject to policy benefits

## Have employees who are pregnant?

Taking good care of their teeth is important to them and their babies!

**For those facing cancer treatments.** We all know that cancer treatments can be hard on the body. They can also be hard on the teeth. Principal provides additional benefits to employees going through chemotherapy and/or head/neck radiation therapy. Yearly, they can receive:

- 100% coverage for three fluoride treatments
- One additional routine cleaning

**General anesthesia program.** All members who have autism, Down syndrome, cerebral palsy, muscular dystrophy, or spina bifida may receive general anesthesia or intravenous sedation coverage through the voucher program. Services must be administered in a dental office.

**Second opinions.** Root canals, crowns, orthodontia, implants, and oral surgery can be costly. Some employees may seek a second opinion before proceeding. Principal provides 100% coverage of second opinion visits.
